

5-AXIS STRUCTURES FOR DEFENSE & AEROSPACE

Defense · Aerostructures · Space — Mirabel (Québec), Canada

Mecachrome Canada **machines and assembles complex metallic parts, sub-assemblies and complete work packages** in Mirabel, Québec: **aluminum and hard-metal** components from medium to large dimensions, built to print. We are part of the **Mecachrome Group**, with **24 sites** across Europe, North America and North Africa. We have **open capacity on our 5-axis park** and are looking for recurring work to fill it.

2004 SITE CREATED	160 EMPLOYEES	160,000 sq ft FLOOR AREA
-----------------------------	-------------------------	------------------------------------

AVAILABLE CAPACITY — MACHINES, ENVELOPES, MATERIALS

MACHINE	QTY	TRAVELS X × Y × Z (IN)	MATERIALS
Mazak Variaxis 630-5X / 730-5X 5-axis simultaneous	4	24.8 × 30 × 20 28.7 × 33.5 × 22	Aluminum & hard metals
Mazak Vortex 815/120-II 5-axis, column feed	1	120 × 31.9 × 27.5	Aluminum (hard-metal capable)
Mazak Vortex 1400/160-II 5-axis, double column	2	157.5 × 55.1 × 27.5	Aluminum (hard-metal capable)
Makino MAG3.EX 5-axis horizontal profilers	7	157.5 × 59.1 × 39.4	Aluminum
Cincinnati gantry profiler 5 spindles, 5 axes	2	720 × 145 × 30	Aluminum & hard metals

Plus complementary 3- to 5-axis centers for hard metals. Capacity is net of committed programs; current availability and hourly rates on request.

CERTIFICATIONS & COMPLIANCE

AS9100D Mirabel site	CGP & C-TPAT Controlled Goods Program registered & C-TPAT certified	AEROEXCELLENCE BRONZE In progress, expected end of 2026
--------------------------------	---	---

TYPICAL PART FAMILIES

DEFENSE	AEROSTRUCTURES	SPACE
- Structural fittings and frames for military platforms - Pylon, mount and interface components in titanium - Missile launch rail / support - Optronic and sensor housings	- Wing ribs, spars, beams and structural fittings - Landing gear components and sub-assemblies - Trunnions and critical rotorcraft fittings	- Satellite structural and shear panels - L-band antenna structures and instrument support panels - Launcher structural fittings and longerons

WHAT IS IN OUR SCOPE

IN-HOUSE — raw-material procurement and stock management · 3- to 5-axis machining in aluminum, titanium and stainless steel, from plate, block or forging · CAM programming, deburring, dimensional control (CMM & laser), FAI · assembly, touch-up paint and sealant, kitting

THROUGH OUR SUPPLY CHAIN — surface treatments, chemical processing and full paint · non-destructive testing (penetrant, ultrasonic) · forging and casting supply, when the part calls for it

NEXT STEP: SEND A DRAWING PACKAGE OR RFQ

We come back with a ROM price and lead time. We can put an NDA in place first, and would be glad to host you at our facility in Mirabel.
